

Priyanshu Sarkar

Software Engineer | Bengaluru, Karnataka, India

✉ psarkar.work05@gmail.com | ☎ +91 7904953079 | 🔗 LinkedIn

Technical Skills

Languages: TypeScript, JavaScript, Java, C/C++, SQL, Python, Perl

Frontend: HTML, CSS, LESS, Bootstrap 5

Frameworks: Angular, React, Spring Boot, Node.js, Express.js, Jest, Mongoose

Databases: PostgreSQL, MongoDB, Pinecone

DevOps: Docker, Kubernetes, Render

Tools: Git, GitLab, GitHub, VS Code, Postman, Swagger, Figma, Visual Studio, Jupyter Notebook, MongoDB Atlas

Design & Architecture: System Design, UI/UX Design, RAG (Retrieval-Augmented Generation), JWT Authentication

Professional Experience

OpenText

Software Engineer

Jan 2026 – Present

- Developing end-to-end Web UI workflows for the **Malware Scan** feature, integrating multiple antivirus engines (**Microsoft Defender** and **ClamAV**) to secure virtual environment **backup** and **restore** operations.
- Worked on workflow stabilization efforts through defect fixes, edge-case handling, validation improvements, and **production hardening of APIs and backend services**.
- Contributed to UI architecture, API design, and end-to-end workflow development involving **scan engine configuration**, **scan policy creation**, and **scan execution**.
- Mentoring and guiding new engineers in Web UI development, providing **technical direction** and conducting **code reviews** to ensure quality and adherence to standards.

Associate Software Engineer

Sept 2023 – Dec 2025

- Led end-to-end development of Web UI workflows for Restore integrations across **SAP HANA**, **VMware**, and **Documentum**.
- Integrated **SAP HANA Store Key-based authentication** into APIs and UI workflows.
- Built reusable UI components reducing development effort by **70%**.
- Enabled **Disk-only**, **Disk + Tape**, and **Point-in-Time Recovery** workflows in MFC UI.
- Re-architected **SAP HANA backup parameter** workflow for **cluster environments**.
- Resolved critical **STAT** defects through root cause analysis.

Micro Focus

Software Engineer Intern

Feb 2023 – Aug 2023

- Developed POC Web UI workflow for **Granular Recovery** in **Data Protector**.
- Extended production support to **Hyper-V** and **H3C CAS** hypervisors.
- Built modular Angular frontend with Jest unit testing.
- Integrated frontend with REST APIs for **VM disk mount/unmount** workflows.

Relevant Project

Portfolio Website — *React, Node.js, Express.js, MongoDB*

- Developed a full-stack personal portfolio application using **React**, **Node.js**, **Express.js**, and **MongoDB**, featuring a responsive UI with dark/light theming, animations, and reusable component architecture.
- Designed and implemented RESTful APIs and backend services for portfolio content management, visitor tracking, contact workflows, and seamless frontend-backend integration.
- Built a secure **JWT**-authenticated Admin CMS with inline CRUD operations, enabling real-time management of projects, skills, certifications, education, and work experience data.
- Integrated a **RAG-based AI chatbot** using **Google Gemini** and **Pinecone**, supporting multi-turn conversations, semantic retrieval, and contextual responses based on portfolio content.
- Implemented secure authentication, password hashing using **bcrypt**, email communication via **Resend**, and database persistence using **MongoDB Atlas**.

Certifications

- Software Architecture & Design of Modern Large Scale Systems – Udemy, May 2026
- DESIGN RULES: Principles + Practices for Great UI Design – Udemy, Mar 2026
- Docker & Kubernetes: The Practical Guide [2025 Edition] – Udemy, Apr 2025
- Java Programming: Arrays, Lists, and Structured Data – Coursera, Dec 2022
- Java Programming: Solving Problems with Software – Coursera, Nov 2022
- Data Base Management System – NPTEL, Sept 2021

Education

BE – ECE, NITTE Meenakshi Institute of Technology *CGPA: 7.75/10 (2019 – 2023)*

Higher Secondary Education (Class XII), Kendriya Vidyalaya AFS Sulur *91% (2019)*

Secondary Education (Class X), Kendriya Vidyalaya AFS Sulur *CGPA: 10/10 (2017)*
